Copernicus wetland, Arthur, Ontario

About Us

At Copernicus Educational Products Inc., we're all about making teaching a little easier.

From creative teaching easels to thoughtful classroom storage solutions, we've been delivering classroom innovation with tools that teachers and students love.

2024 Social & Environmental Responsibility Highlights

Every facet of our Giving Strategy, whether it be our commitment to the environmental education of children, land protection initiatives, or our company-wide Employee Volunteer Program, is a representation of our people and what we value.

We are giving 1% of our annual revenue at a minimum in these areas:

25%

of funds go towards kindergarten to grade 8 environmental education initiatives

10%

of funds go towards community initiatives

65%

of funds go towards environmental conservation initiatives

Land Conservation

To date, we have protected 1430 acres of wilderness land containing provincially significant wetlands including a 188-acre property that hasn't been logged in over 70 years.

Trees for Schools Program

As of 2024, we have donated 207,647 tree seedlings and 15,483 wildflower seed packs to Southwestern Ontario elementary schools in celebration of Earth Day.

Carbon Offsets

Our goal is to be carbon neutral by 2025, primarily by reducing our emissions and offsetting what we cannot.

Supporting Teachers

This year we have donated over 150 products and supplies to teachers in need across North America.

Plastic Packaging Removal

We have removed more than 90% of the plastic in our packaging and are working to eliminate the rest by the end of this year. We did not hit our original target of summer 2021 for this goal, but are continuing to test several options to get us there.

B Corps are for-profit companies, certified by the nonprofit B Lab® that meet rigorous standards of social and environmental performance, accountability and transparency.

Product Testing

Quality and safety are top priorities for us. So it should come as no surprise that we always ensure our products are market-ready before they reach the classroom.

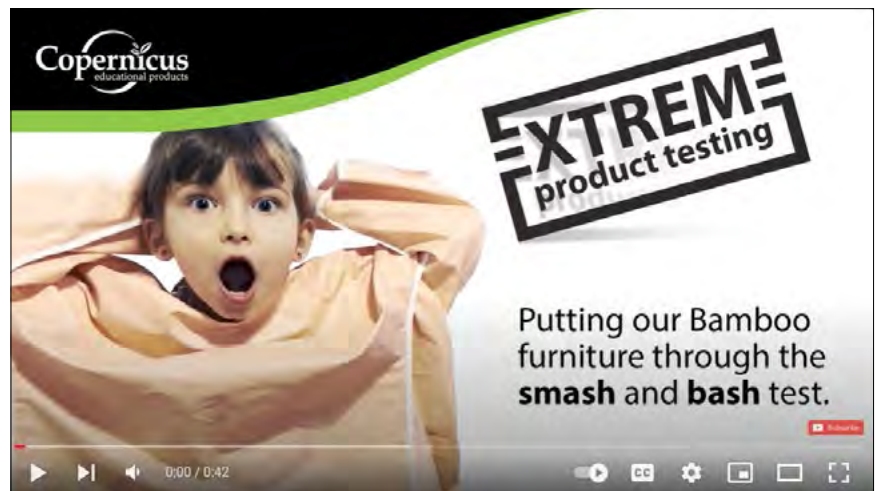

We test our products in real school environments to ensure they can handle the everyday stresses of the classroom.

We take onboard all feedback to ensure that we can make any needed improvements or enhancements.

Chaos testing in action!

Although our products go through a rigorous testing process, we also have a little fun along the way!

Lifetime Warranty

Lifetime Warranty coverage included on almost everything we make!

As a manufacturing company, we appreciate you choosing Copernicus. It is important to us that you're happy with your purchase. If you have any problems or questions, just give us a call or email us and we will do our best to help you!

About our Warranty

We hope you never need to make a warranty claim, but if you do, we promise to explore every way possible to quickly fix it. It's that simple. We also offer free replacement parts upon request.*

Whiteboard Replacement Parts Program

Have a well-used whiteboard that needs replacing?

Rather than sending your easel to the landfill, we now sell replacement whiteboards at a heavily reduced cost for all of our easels. So, when the time comes to retire your whiteboard, we'll help get your easel back up and running in no time—it's a win-win for your classroom and for the environment.

Repair Parts Program

Contact us to find out more. Parts on most of our products are usually free.

No need for the landfill!

3 ways to revitalize your Copernicus products:

1. Repair

Contact us for parts; our lifetime warranty covers just about everything.

2. Reuse

Can someone else use this, or could a shop or STEM class use some parts?

3. Recycle

Contact us to double check which parts can be recycled, and don't forget to check your local recycling guidelines!

[Find out more information on product lifecycles.](#)

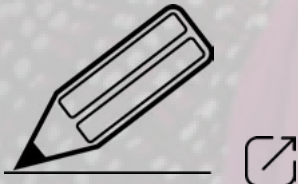

*There are exceptions to our [Lifetime Warranty](#) coverage. The whiteboards on our teaching easels carry a 5-year warranty. Electrical components carry a 1-year warranty. Our product warranty is valid when used under proper application in a classroom, daycare or library.

You are awesome.
You make
a difference.
We thank you.

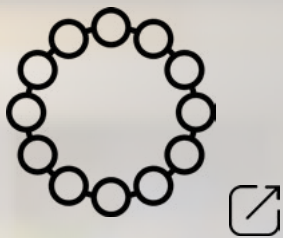

Copernicus Thank You Program

Educators, you go above and beyond everyday. To show our appreciation, every month we're giving away supplies, products or a contribution to your DonorsChoose Project—your choice!

Sign up here!

the benefits of
becoming an Advisor

Partnering with educators to shape the future of the classroom

[The Idea Lab](#)

We thank our Idea Lab Educator Advisors for their unwavering support and guidance over the past year. You've helped us develop and test our new products under unusual circumstances, ensuring they are ready for classrooms, wherever they may be.

Participate in testing and evaluating new products, or simply provide feedback from time to time. While you're at it, earn credits for everything you do that can be used towards outfitting your school with Copernicus products.

Bamboo: Strong, durable and beautiful, naturally.

The planet is in a climate crisis, so reducing the environmental impact of our products is crucial.

We're growing our line of bamboo products to include more easels and carts!

These products are a more sustainable choice than metal models because they have a smaller carbon footprint.

Bamboo is a renewable resource that grows quickly and sequesters carbon, unlike metal which produces carbon.

What does 'sequesters carbon' mean?

Carbon sequestration is the capturing, removal and storage of carbon dioxide (CO₂) from the earth's atmosphere. It's recognised as a key method for removing carbon from the earth's atmosphere.

Learn how we **ethically source** and produce our Bamboo components

Discover **why bamboo is the smart choice** for classroom furniture!

Our **Bamboo Book Browser Cart (BB006-9)** produces

32% less

carbon than the metal equivalent. This means 12.48 kg of CO₂e is saved every time a BB006 is purchased over a BB005, which is equivalent to **saving 31 miles or 49.9 km** driving an average gasoline passenger vehicle.

Bamboo Deluxe Chart Stand (CS701) produces

20% less

carbon than the metal equivalent. This means 8.85 kg of CO₂e is saved every time a CS701 is purchased over a CS700, which is equivalent to **saving 22.6 miles or 36.3km** driving an average gasoline passenger vehicle.

[Find out how we calculate a product's carbon footprint](#)

A note about the carbon footprints of our products:
We provide the carbon footprint numbers when available. As we work through the analysis of our products we will update or add when information is available

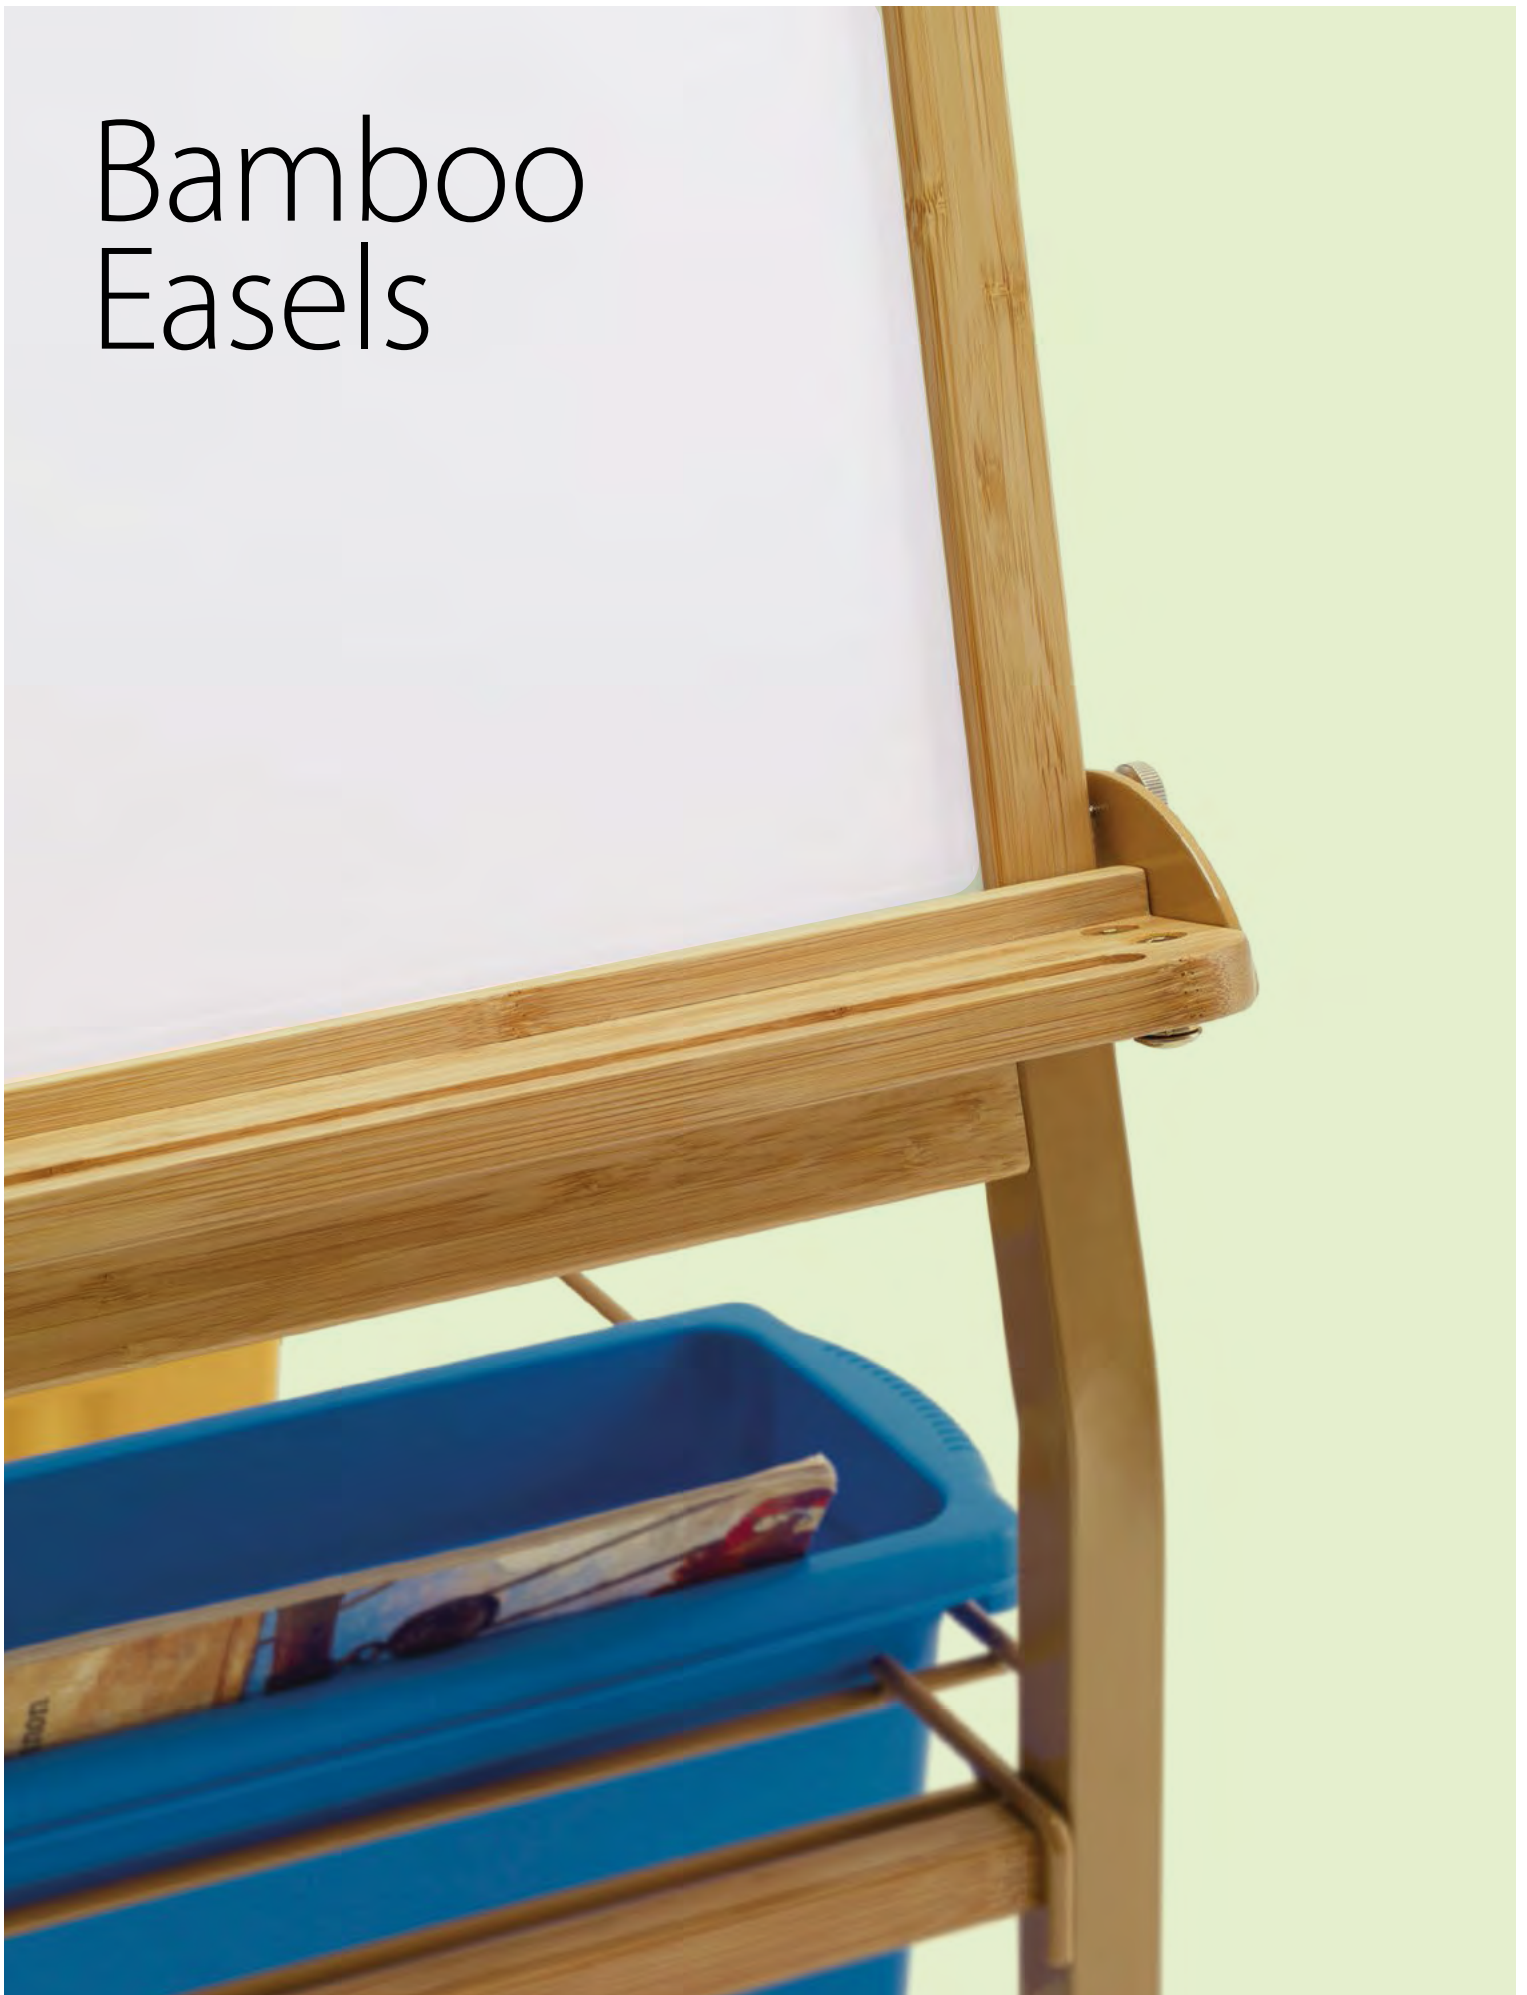

By making our products from more sustainable materials, like bamboo, we are contributing to the United Nation's Sustainable Development Goal #12, called Responsible Consumption and Production Patterns.

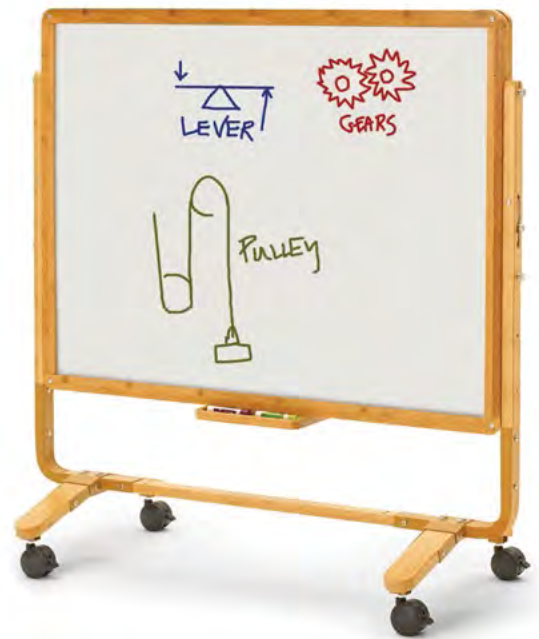

In 2024, we donated \$5,000 to the WWF on behalf of all educators that bought a bamboo product.

Bamboo Easels

Optional Collaboration
Whiteboard Slate Kit
(CWB-AC)

NEW Collaboration Center (CWB3-PB)

The Collaboration Center offers plenty of space for STEM equipment. With a large 4' x 3' pegboard on one side and a magnetic whiteboard on the other, the easel can be positioned in either vertical or horizontal formats and different height setups.

- Multiple units can be connected together to form partitions
- Marker ledge
- Locking 3" casters
- Includes 20 metal pegboard hooks
- Low-carbon footprint bamboo construction

Optional [Collaboration Whiteboard Slate Kit \(CWB-AC\)](#)

Bamboo Magnetic Lined Dry-Erase Board (AC465)

Easily transition across lessons with this bamboo double-sided, magnetic dry-erase board. It's lined on one side allowing for multiple uses. Hooks allow easy hanging to any nearby surface in portrait or landscape orientation.

- Double-sided magnetic whiteboard
- Low-carbon footprint bamboo construction

Carbon Footprint
6.49 kg CO₂e

Dimensions
23 ½" H x 34" W x 1" D

NEW Bamboo Tabletop Easel (TTE200)

Small but mighty! With two magnetic dry erase boards, one lined, and a detachable pocket chart to aid language development, the Bamboo Tabletop Easel is the perfect companion for one-on-one instruction and independent work.

- Two-sided magnetic dry-erase whiteboard
- One side with lines for writing activities
- Book/marker ledge on each side
- Folds for storage
- No-pinch hinge mechanism, snaps into open position
- Low-carbon footprint bamboo construction

Carbon Footprint
Pending

Dimensions
18" H x 18"W x 19"D

Double-sided whiteboard

Early Years Creator Center (ECC1)

This Early Years Creator Center enables children of multiple ages to play and learn together. It features portrait and landscape orientations, with a magnetic double-sided board and a lower compartment for storage of numbers, letters, and more for children to access on both sides.

- Double-sided magnetic whiteboard can be assembled in portrait or landscape format
- The base of the stand can be used for storage (four different compartments, two on each side of the board)
- Low-carbon footprint bamboo construction

Carbon Footprint
11.26 kg CO₂e

Dimensions
37" H x 24 1/2" W x 13" D

NEW Bamboo Primary Teaching Easel (PTE80)

The Primary Teaching Easel is a valuable tool for early childhood and primary teachers to orchestrate and store lessons. With room for two little learners, multiple independent and group lessons are a breeze. This easel has an extra long front dry-erase board that measures 40" H x 28" W to accommodate little learners.

- Front magnetic dry erase board
- Rear removable felt board
- Book ledge locks into multiple positions
- 4 Small Open Tubs for lesson storage
- 2 Snap-on chart paper and felt board hooks
- Big Book and Tub Racks
- 3" locking casters
- Low-carbon footprint bamboo construction

Carbon Footprint
Pending

Dimensions
61 1/2" H x 30" W x 28" D

Tub Configurations

2 magnetic dry-erase whiteboards (front and back)

Big Book racks

Updated Bamboo book ledge that locks into multiple positions

4 sliding Open Tubs with safety-stops

3" locking casters

Updated Double Sided Bamboo Teaching Easel (BE1)

This easel was designed to bring natural elements into the classroom and is ideal for neutral or early years environments. The sturdy frame and shelf is constructed of bamboo, a sustainable and fast growing plant.

- 2 magnetic dry erase boards (front and back)
- 4 sliding Open Tubs with safety-stops
- **Updated** Bamboo Book ledge that locks into multiple positions
- Middle shelf
- Big Book racks
- Snap-on chart paper hooks
- 3" locking casters
- Low-carbon footprint bamboo construction

Available color combinations include:

- Sage Open Tubs (BE1)
- 100% Recycled Black Open Tubs (BE1-RCY)

Carbon Footprint
54.22 kg CO₂e

Dimensions
59" H x 30 1/2" W x 28 1/2" D

Tub Configurations

Bamboo Royal® Reading Writing Center (BE005)

This bamboo version of our award-winning Royal® Reading Writing Center has the same unique features to help you teach more efficiently while engaging your students. This easel is an essential teaching tool. It combines a chart stand, storage for books and materials, dry-erase surfaces, and a book ledge for storytime.

- Front magnetic dry erase surface
- Rear removable double-sided dry erase whiteboard (lined on one side)
- 4 sliding Open Tubs
- Ultra-Safe premium book ledge that locks into multiple positions
- Large middle shelf
- Big Book Racks
- Snap-on chart paper hooks
- 3" twin wheel locking casters
- Low-carbon footprint bamboo construction

Carbon Footprint
64.25 kg CO₂e

Dimensions
56 1/2" H x 33" W x 27" D

Tub Configuration

Double-sided whiteboard

Updated Bamboo Deluxe Chart Stand (CS701)

This multi-purpose chart stand has a natural aesthetic better suited for neutral and early childhood environments. It can hang both chart paper and pocket charts along with the ability to adjust the height of the whiteboard.

- Magnetic double-sided dry-erase whiteboard
- Telescoping hooks for pocket charts
- Height-adjustable upon assembly
- **Updated** Bamboo Book ledge that locks into multiple positions
- Two Large Open Tubs
- Snap-on chart paper hooks
- 3" locking casters
- Low-carbon footprint bamboo construction

Available color combinations include:

- Sage Open Tubs (CS701-S)
- Vibrant Open Tubs (1 Aqua, 1 Yellow) (CS701-VM)

Carbon Footprint
33.5 kg CO₂e

Dimensions
54-72" H x 28" W x 27" D

Tub Configurations

Lined whiteboard and includes a detachable felt surface

Updated Bamboo Early Learning Station (ELS2)

With multiple activity-based features, this is perfect for preschool to grade one classes. The easel provides teachers with quick set-up and the ability to change lessons when needed. It has two whiteboards, one lined for students to practice their printing and it folds away for easy storage.

- 2 magnetic dry-erase whiteboards, one side with solid/dotted/solid line sequence
- Roll-up felt for creative play, with corner ties and magnets to secure on station
- **Updated** bamboo book ledge that locks into multiple positions
- 2 Large Sage Open Tubs
- 4 Snap-on chart paper and accessory hooks
- Frame folds for easy storage
- 3" locking casters
- Low-carbon footprint bamboo construction

Available color combinations include:

- Sage Open Tubs (ELS2-S)
- Vibrant Open Tubs (ELS2-VM)

Carbon Footprint
43.95 kg CO₂e

Dimensions
51" H x 26 1/4" x 29 1/2" D

Tub Configurations

Art Center can be separated into two items; an easel and a drying rack

Bamboo Double Sided Art Center (BPC01)

The Bamboo Double Sided Art Center has a natural aesthetic suited for neutral and early childhood environments. The Art Center is a collaborative and creative sensory station—a perfect addition to primary classrooms.

- 2 removable paint pot trays
- Double-sided dry-erase boards
- 5 drying racks
- 1 Really Big Tub for extra storage
- Includes clips to hold paper in place
- Can be used as standalone items—tabletop/floor easel and drying station
- Low-carbon footprint bamboo construction

Options

- Art Center (BPC01)
- Easel only (BPC02)
- Drying Rack only (BPC-DR)

Carbon Footprint

- 47.19 kg CO₂e (BPC01)
- 14.59 kg CO₂e (BPC02)
- 27.37 kg CO₂e (BPC-DR)

Dimensions

- 48" H x 27" W x 30" D (BPC01)
- 33 ¾" H x 27" W x 30" D (BPC02)
- 16" H x 27" W x 30" D (BPC-DR)

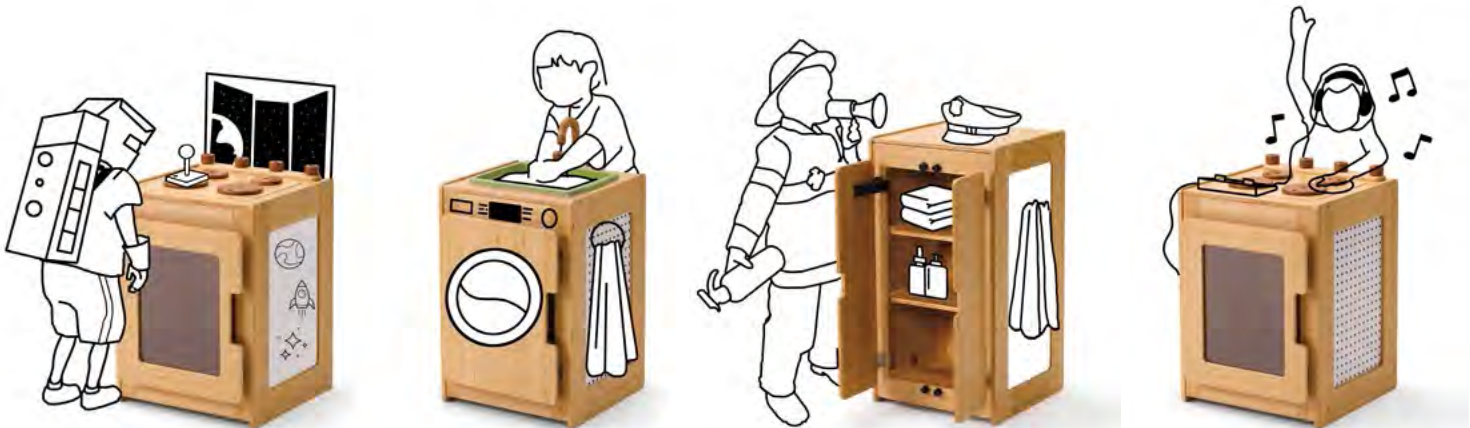

Bamboo Storage and Furniture

Is it a sink, or a washing machine? Is it a stove, or a DJ Stand?
 Is it a fridge, or a wardrobe? **The choice is yours.**

NEW Make-Believe Kitchen Set (BMB-KS)

This bamboo Make-Believe Kitchen set includes a sink, stove and fridge featuring magnetic whiteboards, pegboards, shelving, knobs, and dials to add emergent literacy and imaginative play opportunities.

Products can be purchased individually, or as a set

NEW Make-Believe Sink (BMB1)

- Magnetic whiteboard on one side, pegboard on the other side to add emergent literacy and imaginative play opportunities (pegboard hooks not included)
- Rounded corners with safety edges
- Rotating taps
- Durable Stubby Tubby in Sage for removable sink basin
- No-pinch hinges
- Low-carbon footprint bamboo construction

Carbon Footprint
Pending

Dimensions
32" H x 19 1/2" W x 19 1/2" D

Royal® Reading Writing Centers

These easels are an essential teaching tool for all primary and junior classes. Designed with teacher-driven features that help keep everything organized and lessons more engaging. They combine a chart stand, storage for books and materials, dry erase surfaces and a book ledge for story time.

More Features

Premium Reading Writing Center

This easel is the ultimate in storage with 10 slide-out storage tubs, 8 Tiny Tubs for smaller items, 3 book folders and chart paper hang tags. It is a versatile lesson center in 1 compact footprint.

- Front magnetic dry erase surface
- Ultra-Safe premium book ledge that locks into position
- 6 Open and 4 Small Open Tubs with safety stops
- Large open shelf with 6 Tiny Tubs
- 2 repositionable Tiny Tubs on front (ideal for storing extra markers)
- 40 Chart paper hang tags
- 3 Folders on the back to store books, etc.
- 2 Snap-on chart paper hooks
- 2 Hooks within the easel to store extra chart paper
- 3" twin wheel locking casters

Royal® Reading Writing Center

This easel is an essential teaching tool. It includes a rear removable whiteboard that is double-sided (lined on one side), a Big Book rack, 4 slide-out storage tubs, Tiny Tubs for markers and 2 foot-activated brakes.

- Front magnetic dry erase surface
- Rear removable double-sided dry erase board with lines on one side
- Ultra-Safe premium book ledge that locks into multiple positions
- Includes large middle shelf
- Big Book racks
- 2 Tiny Tubs
- Snap-on chart paper hooks
- 4 sliding Open Tubs with safety stops
- 3" casters, 2 foot-activated brakes

Classic Royal® Reading Writing Center

This easel provides quick access to the tubs and includes a middle shelf to help keep everything organized. The rear removable whiteboard is double-sided (lined on one side).

- Front magnetic dry erase surface
- Rear removable double-sided dry erase board (lined on one side)
- 4 sliding Open Tubs
- Ultra-Safe premium book ledge that locks into multiple positions
- Large middle shelf
- Big Book Racks
- Snap-on chart paper hooks
- 2" twin wheel locking casters

Types of plastics we use

These days, we often just call everything “plastic” without thinking much about it. But there are actually different types of plastic, each with different properties, use, recyclability, and safety issues. Knowing about these different kinds can really help us make smarter choices.

Post-consumer plastic

This is plastic that you’ve thrown away in your blue box. So this is the best type of plastic to recycle into products.

Large Open Tub in Black
(CC4068-RCY)

The most environmentally-friendly choice — made with 100% post-consumer plastic

Post-industrial plastic (aka pre-consumer)

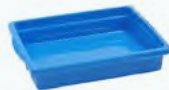

This type of plastic is leftover from manufacturing. This ensures nothing is wasted; however it is made of virgin material to begin with.

Large Open Tub
(CC4068)

Large Divided Tub
(CC4069)

Stubby Tubby
(CC4074)

Small Divided Book Tub
(CC4071)

Small Open Tub
(CC4070)

Virgin (new) plastic

This plastic has no recycled content and uses the most resources from the earth.

Small Open Tub Clear
(CC4070-C)

Manipulative Cleaning Tub
(mesh bottom tub only)
(SAN-CC4068)

Large Divided Tub Clear
(CC4069-C)

Large Open Tub Clear
(CC4068-C)

Really Big Tub
(CC4073)

Tiny Tub
(Not sold individually)

Library on Wheels (LW430)

These carts make the perfect in-class storage solution, where students can help themselves to a book. They are also useful in Makerspaces for organizing or color coding materials and storing tools.

- Sturdy frame designed to be moved throughout a school
- 9 Divided Tubs to keep books and other materials tidy (each tub holds 10lbs)
- Adhesive name pockets for tubs to help keep everything in order
- When recycled materials are available, we use up to 25% recycled content
- 5" casters (2 locking) to easily move over carpet and other floor surfaces

Option also available with 18 Small Open Tubs (LW430-18)

Carbon Footprint
75.37 kg CO₂e

Dimensions
40" H x 51" W x 18" D

Carbon Footprint
72.54 kg CO₂e

Dimensions
40" H x 51" W x 18" D

STEM Storage Cart (LWSTEM)

This sturdy cart includes 23 tubs for materials, robotics and manipulatives. The tubs aid in color coding and can be removed from the cart. The removable, dry erase board is perfect for collaboration and sketching out ideas.

- Sturdy frame designed to be moved throughout a school
- 3 Divided Tubs, 12 Small Open Tubs to keep books and other materials tidy (each tub holds 10lbs)
- 8 Tiny Tubs to hold pencils, markers and other small materials
- When recycled materials are available, we use up to 25% recycled content.
- Removable double sided dry erase board
- 5" casters (2 locking) to easily move over carpet and other floor surfaces

Carbon Footprint
43.82 kg CO₂e

Dimensions
40" H x 51" W x 22 1/2" D

STEM Storage Cart with Pegboard Kit (LWSTEM-PB)

This sturdy cart is designed to provide plenty of storage with 23 tubs for maker materials, robotics, and manipulatives. The different colored tubs aid color coding and all the tubs can be removed from the cart.

- Sturdy frame designed to be moved throughout a school
- 3 Divided Tubs, 12 Small Open Tubs to keep books and other materials tidy (each tub holds 10lbs)
- 8 Tiny Tubs to hold pencils, markers and other small materials
- When recycled materials are available, we use up to 25% recycled content.

1 sliding Really Big Tub

2 removable paint trays with 7 paint pots in each and spill-proof caps

10 built-in drying racks

The Tech Tub[®] Advantage

Tech Tub is a student-led device management system for charging, storing and locking up devices.

1

Supports small groups and sharing models

Many schools are considering smaller class sizes and different configurations. Tech Tubs can adapt to almost any setup.

2

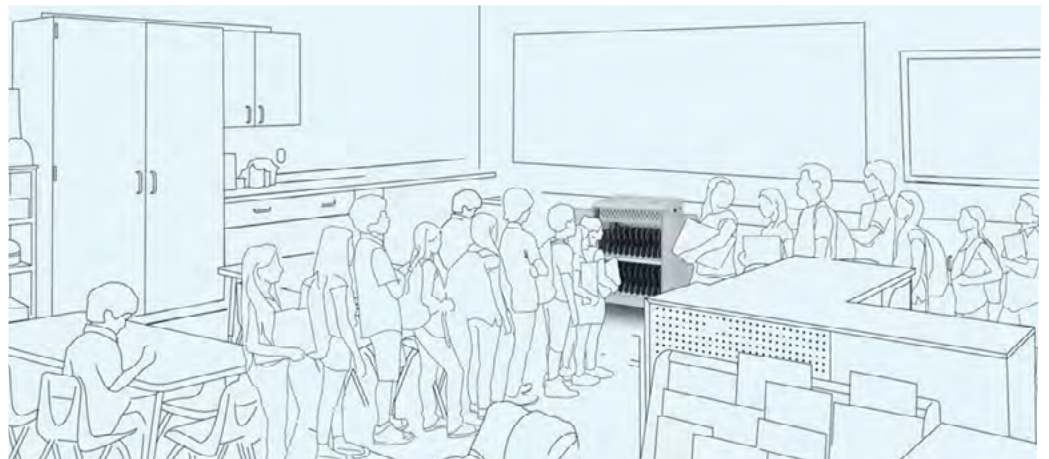

Reduces deployment bottlenecks

Placing tubs around the classroom allows more distance between students and reduces deployment bottlenecks. A large charging cart can't provide the same options.

3

Future-proofing for remote learning deployments: A typical charging cart can't do this.

The CDC suggests that schools be ready for future viral outbreaks. If remote learning deployments are required due to a sudden outbreak, our Tech Tubs are easy to move to distribute devices. Dealing with cords is always a pain, but Tech Tubs are easy to uncable.

Two ergonomic handles on the door and back as well as a flip-up handle on the top

Made from durable high impact ABS plastic with ventilation holes throughout to prevent heat build-up

Easy-to-use side cable organizer

Adjustable shelves accommodate devices with and without cases

Easy-access storage tray for device adapters and internal 6 or 10 outlet power strip (depending on model) with surge protection

3-point lock with 2 keys

Mobile

Tech Tubs® can be purchased individually and carried throughout a school or incorporated into Trolleys and Modular Cart configurations.

Affordable

Tech Tubs® offer a direct alternative to high cost, heavy, oversized tech storage and charging carts. Tubs are sold individually, allowing schools to "grow their technology" at a pace that supports their device budgets.

Flexible

Tech Tubs® can store, charge and sync iPads®, most 11" Chromebooks™ and other tablets with or without cases and can be placed around a classroom to ease deployment bottlenecks.

Dimensions
12 3/4" - 23" H x 10 3/4" W x 15" D

Dewey the Document Camera Stand

Turn your devices, including your smartphones and iPads®, into a document camera by utilizing the camera app. Dewey enables students to get up-close and explore their studies. The sturdy frame sets up quickly, mounts to surfaces and provides teachers and students with the opportunity to share work, ideas and anything else that inspires.
